A Message From MMA's Junior High Lead, Emily Goddard

The junior high teaching team is headed to Cincinnati this summer for an innovative and multidisciplinary graduate program for secondary Montessori teachers. The program involves the mastery of program structure and specific strategies as well as a thorough understanding of philosophy, and instructional strategies needed by teachers of the adolescent program. This program will support our efforts to create a community of adolescent learners in an inclusive school culture.

Our program follows a three year theme cycle by which we design our curriculum. This fall we will begin year 'c.'

Year A	Year B	Year C
Orientation	Orientation	Orientation
Exploration	Community	Change
ID	Structures	Forces
Systems	Patterns	Power
Interdependence	Balance	Connections

The junior high building is scheduled to begin the first part of September. Spring is the goal for accessing the classrooms in the new building. We look forward to sorting our upcoming 7th grader students into their advisory house this fall where they will receive daily support in their transition into junior high. It is an exciting time for our adolescent program. Please visit our blog to access more information about upcoming events, teacher blogs, view pictures, and more!
