Maria Montessori Academy Technology Plan

Maria Montessori Academy will ensure all students have access to teachers, lessons, assignments, and projects through online platforms such as Google classroom, Zoom and/or other platforms determined by administration which will be used by all teachers. Core subjects will be taught to all students via online curriculum and platforms.

Teachers, students, and parents will be provided training to effectively use all online platforms.

Students that do not have access to a device, will be allowed to check one out from the school, and parents will need to sign a form stating they will be responsible if the device is damaged or broken.
